THE FEI CODE OF CONDUCT FOR THE WELFARE OF THE HORSE

The Fédération Equestre Internationale (FEI) expects all those involved in international equestrian sport to adhere to the FEI's Code of Conduct and to acknowledge and accept that at all times the welfare of the horse must be paramount and must never be subordinated to competitive or commercial influences.

1. At all stages during the preparation and training of competition horses, welfare must take precedence over all other demands. This includes good horse management, training methods, farriery and tack, and transportation.
2. Horses and Athletes must be fit, competent and in good health before they are allowed to compete. This encompasses medication use, surgical procedures that threaten welfare or safety, pregnancy in mares and the misuse of aids.
3. Events must not prejudice horse welfare. This involves paying careful attention to the competition areas, ground surfaces, weather conditions, stabling, site safety and fitness of the horse for onward travel after the event.
4. Every effort must be made to ensure that horses receive proper attention after they have competed and that they are treated humanely when their competition careers are over. This covers proper veterinary care, competition injuries, euthanasia and retirement.
5. The FEI urges all involved with the sport to attain the highest levels of education in their areas of expertise.

A full copy of this Code can be obtained from the Fédération Equestre Internationale, HM King Hussein I Building, Chemin de la Joliette 8, 1006 Lausanne, Switzerland. Telephone: +41 21 310 47 47. The Code is available in English. The Code is also available on the FEI's website: www.fei.org

EQUIMAX[®] LV
IVERMECTIN

STRATEGY[®] T
Oral Broad Spectrum Worm Paste for Horses

Strategy-T[®] and Equimax-LV[®]*
your knock-out combination
in the fight against worms.

Rotate Strategy-T[®] with Equimax LV[®] and worms won't know what hit them.

Virbac horse wormers work together like a one-two punch: each treatment uses a different active ingredient so that any worms which may be resistant to one will be knocked down by the other.

Strategy-T[®] is the leading Non-Mectin horse wormer, which means it can treat Mectin and BZ resistant worms. This makes Strategy-T[®] the perfect rotation partner for traditional Mectin wormers such as Equimax LV[®]. What's more, it's been proven to be effective in local conditions during NZ based trials.

Strategy-T[®] and Equimax LV[®]:

- ▶ Are safe to use on all horses including foals, pregnant mares and breeding stallions.
- ▶ Both come as a tasty, flavoured paste that's easy to administer.
- ▶ One oral syringe can treat a horse that weighs up to 700kg.

A rotational attack is your best defense against worms.

*Ivermectin oral paste for horses. ACVM Nos. A10923 and A8044

FEED OPTIONS FOR SHOWJUMPERS

Why feed Pryde's EasiFeed?

- Top quality feeds using top quality ingredients only
- The complete feeds include all vitamins and minerals when fed at rec. rates
- Top quality protein for topline, recovery, muscle, hooves and coat shine
- Well digested – extruded and pelleted feeds. No raw grains.
- Great range for any horse or pony and for any budget
- Pryde's are great supporters of Showjumping in NZ and Australia

Available at Wrightsons, Cambridge Grains, Fiskens, Falloons, Spurs and other selected stores around NZ. Contact Hayley-Jane your Pryde's rep for more info on 027 2476881

Let us introduce some of our main feeds!

EASIRIDE – A cost-effective favourite! Non-heating. Great maintenance feed. Well-priced. Beats raw grain feeds. Ideal for good doers and horses and ponies that don't need too much feed or gas in the tank! The official NZ Pony Club feed

EASIRESPONSE – Best value extruded feed per kg. Ideal for holding or putting on condition. Perfect for horses in higher competition or at shows most weekends.

EASIRESULT – Pryde's No. 1 Feed for fussy horses. Suitable for higher workload and conditioning. Typically non-heating. Similar job to Response but a sweetfeed.

EASISPORT – The No-grain option. This is the feed for you if horse or pony needs a No-grain competition feed.

150 BALANCER PELLET – Don't need a hard feed? Just want vits and mins? Try this low feeding rate supplement. Great for in the off-season or for overweight horses/ponies. Not needed if feeding recommended rates of feeds above.
