

XLR8 EQUINE NZ PRESENTS RECYCLED RIBBON FUNDRAISER DAY

SUNDAY June 3rd

WANGANUI RACECOURSE

Gates open 9am

Reagan has been the shining light in the dark for so many people. Her confidence radiated through those around her, and she was always able to help people find the light in their own bad situations.

However for the past 3 years Reagan has been fighting a losing battle with the public health system, and for the last 12 months especially she has been on a dark and downward spiral with no answers, and has been suffering a faster and faster decline in her health both physically, and now mentally. Reagan has been essentially bed ridden for the last 12 months, with severe pain, nausea, vomiting and a whole host of other "female symptoms". Through all this the public health system has been unable to find a cause for her symptoms, and they have now resorted to patient blaming.

12 months ago, while still sick, Reagan was able to hold down a full time job. Since then she has had to quit her job, and live on the bare minimum. This means that she can't afford the medical care she so desperately needs. The travel to specialists and the constant stream of medications that keep being thrown at her on a "let's see" basis.

Reagan has become a shell of who she was, suffering through constant anxiety attacks within her own home, continual self-doubt, she has gone from the "she'll be right" person we all know and love, to the helpless and hopeless shell with no spark left in her eyes.

Reagan has done so much for so many people in her life that she thoroughly deserves any help she can get, we just want the Reagan we know and love back, and the public system is not going to get her back for us.

Funds raised will be used for medication, travel to appointments, and ultimately referrals to private specialists plus whatever treatment is deemed necessary – Holly Travers

Reagan Donovan and Just a Ruff Chance
